1. Digital Parents need to APPLY themselves:

- An open dialogue with your child is necessary
- Plan on how you will monitor your child’s friends and devices
- Prepare a Parent/Child Agreement and set guidelines
- Love your child, but be honest about rewards and consequences
- You continually educate yourself with the latest research and books

2. Priorities to parenting digital native children:

- Make meal time family time well spent
- Remove devices from bedrooms & automobiles
- Set digital time-outs daily to increase emotional intelligence
- Teach we’ over ‘me’ brings humility
- Support schools teaching ownership & responsibility
- Parent ‘being better not the same’
3. **Restore** parental authority

- Focus on responsibility not entitlement
- Reestablishing social skills will bring about better academics
- Reinstate hierarchy of parent over child – not friend/equal or lower
- Guide a child to seek your support over the peer-to-peer thinking
- Role model good digital citizenship

4. **Culture** of kindness in the home

- Empathy, emotional awareness & management are keys
- Motivate a child: immediately, habitually, precisely & be genuine
- Instill impulse control & delay gratification
- Implant ownership to mistakes
- Inspire others & self

5. **CONSIDERATIONS** before setting parental controls:

- Restrictions desired or needed
- Age & grade of your child
- Budget set aside for different controls
- Time willing to devote to monitoring
- Personal parenting preferences
Proactive Parenting Plan
